CHAMBRE DES COMMUNES

NDP Motion to be debated at the Standing Committee on International Trade in the Fall Session of Parliament

That the Standing Committee on International Trade report to the House of Commons urging the Government of Canada to stop further implementation of the Security and Prosperity Partnership of North America (SPP) with the United States and Mexico until there is a democratic mandate from the people of Canada, Parliamentary oversight, and consideration of its profound consequences on Canada's existence as a sovereign nation and its ability to adopt autonomous and sustainable economic, social, and environmental policies, and that the Government of Canada conduct a transparent and accountable public debate of the SPP process, involving public consultations with civil society and a full legislative review, including the work, recommendations, and reports of all SPP working groups, and a full debate and a vote in Parliament.
